DETAILED ACTION

1. This application claims benefit of the provisional applications:

60/381,616 with a filing date 05/17/2002; and

60/406,711 with a filing date 08/29/2002.

2. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on June 14, 2007 has been entered.

3. Amendment of claims 1 and 7, cancellation of claims 3, 8-11 and 13-21, and addition of claims 22-26 in the amendment filed on June 14, 2007, is acknowledged. Claims 1-2, 4-7, 12 and 22-26 are pending and prosecuted in the case. However, addition of the new claim 22 with a new formula has invited a new matter. It is noted the new formula or subgenus of claim 22 has not been found in the specification.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 22 and 7 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. It is noted the new formula or subgenus of claim 22 has not been found in the specification.

Claim Objections

5. Claims 1-2, 4-7, 12 and 22-26 are objected to as containing non-elected subject matter, i.e., heterocycloalky, heteoary, etc., see section (vii) in the page 4. The variable G does not represent heteoary or heterocycle, or it is not substituted with heteroary or heterocycle, see Group I of the restriction requirement of the Office action, dated 3/23/2006.

6. Claim 1 is objected to as containing typographic errors. It is noted that a phrase "with the following provisos" is missing for the section (a) and (b), see line 18 of the page 3. Moreover, the sections (v)-(viii) of the proviso (b) set forth to belong to the scope of section (iv). Incorporation of the phrase "with the following provisos" for section (a)–(b) and elimination of the symbols (v), (vi), (vii) and (viii) of the section (b) would obviate the objection.

7. Claims 23-24 are objected to for being substantial duplicates of the claims from which they depend. It is noted the formula of claim 23 is duplicated, see the fourth formula of claim 6. On the other hand, the formula of claim 24 is duplicated, see the last

Art Unit: 1626

formula of claim 7. When two claims in an application are duplicates, or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to reject the other as being a substantial duplicate of the allowed claim. M.P.E.P. 706.03(k).
